CERTIFICATIONS

- Data Science with Python
  - CodeWithHarry

- Full-Stack Web Development
  - CodeWithHarry (Pursuing)

PROFILE

A passionate and dedicated B.Tech student specializing in Computer Science and Design, driven by a deep curiosity for Data Science and Full-Stack Development. I believe in a hands-on approach to learning and enjoy turning complex problems into elegant, data-driven solutions.

EDUCATION

- **B.Tech, Computer Science & Design** | World College of Tech. & Mgmt. | 2024–2028
- **Class XII, Science** | MDS Intermediate College, Meerut | 2023
- **Class X** | Rajesh Pilot Inter College, Meerut | 2021

PROJECTS

Project Ideator | ShieldX (Smart India Hackathon 2025)

- Conceptualized "Suraksha Setu," a digital platform to enhance disaster preparedness in schools using VR drills and gamified learning.
- Led initial brainstorming sessions and defined the project's core features and roadmap.

Solo Developer | Data Analysis in Python

- An ongoing personal project focused on analyzing public datasets.
- Utilizing Python libraries like Pandas for data cleaning and Matplotlib for creating insightful visualizations to identify trends and patterns.
